About This Game

As so many of these things do, it all begins on a magical island. In this case, Gogapoe Island, a place populated by both humans and monsters. What starts out as a mission to get back Niko's birthday cake becomes a quest for the fate of Gogapoe itself. But, ya know, cake is still super important, too!

Oodles of friendly monsters will join Niko's quest and use their kooky powers to help him explore the island, solve puzzles, demolish obstacles, and just generally humiliate enemies. Hordes of evil monsters will cause mayhem and generally be jerkfaces, but that's nothing you can't fix with headbutts, frost breath, stink clouds and rainbow barf.

Save the day and fulfill your monstrous cakelust all at once in MONSTERS ATE MY BIRTHDAY CAKE!

game was released quite a few years ago, probably around when I was twelve, but it is a longstanding favorite of mine. I
originally bought it on mobile, but never redownloaded it when I got a new phone. Recently I remembered it and was sad to see
they had taken it off the iphone store, so seeing it available on steam was awesome.

I instantly bought it and honestly, it's just as good as I remember, if not better. It's a cute game - with cute graphics, cute music
and audio, and a cute storyline, all while still being difficult enough to make you play levels a couple times to get three stars or
to figure things out. Getting all of the achievements takes some time, but it's quite easy, which is nice.

As you can see, I've spent quite a large amount of time in the game. I don't think I'll ever get fully sick of it. There's some
glitches here and there where a character might die for seemingly no reason and you have to restart the level, but each level can
be completed in three minutes or less and it happens rarely, so it's not a huge problem in my eyes.
